

LONG RUNNER

TRUCK MOVES — LIGHTENING YOUR LOAD

It's an enviable record. Day in, day out, right around the clock, all around the country, Truck Moves Australia has provided transport services to manufacturers, importers and dealer networks for more than three decades.

It's amounted to thousands of on-time deliveries of medium and heavy trucks to all points of the compass. From the Top End to Perth, Far North Queensland to Melbourne, city to city, or just around a city, Truck Moves has always been there to provide the right move.

"Thirty-six years say we've been at it for quite a while. They also say that, with our experience, we've developed a special method to handle the logistics of transporting trucks in a very efficient and cost-effective way," says Truck Moves owner Matt Whitnall.

Over the years, a lot of businesses have put their trust in Truck Moves. Importers, manufacturers, dealers, body builders, truck auctioneers, leasing companies, and mining and industrial services — they've all used

Truck Moves because they've found that with our experience, we deliver.

"We operate a service that covers the length and breadth of Australia," says Whitnall. "Same-day pick-up for a delivery across the street, or across the country. Whether it's a fleet operator, truck manufacturer or body builder — everyone gets the same service."

The beauty of Truck Moves is that all the hours of organisation and stress that comes with moving trucks is taken care of with a simple online booking.

"By the time you add up all the costs of organising a driver, insurance, travel, accommodation, super, payroll taxes and so on, you could have quoted, sold or even built a truck," says Whitnall.

There's no question experience counts in the trucking business. With Truck Moves, there's certainly plenty of that. Thirty-six years of experience that a lot of businesses know they can call on, any time, any day of the year.

"TRUCK MOVES? THEY'RE GOOD — BASICALLY, VERY GOOD."

So says veteran NSW operations manager Rudy Terkes. He's just one of many vocal supporters who like the way Truck Moves goes about its business. He knows how much time and money is saved. And he knows just how valuable a resource they are to his company and employees.

"We're a family-orientated company. We've got married employees. When you work as much as we do, and we work a fair bit, come Saturday or Sunday you don't want to move a truck. You just want to stay home with the kids," says Terkes.

For managers like Terkes, Truck Moves eases the burden and eliminates the hassle and headaches of moving trucks interstate. They'll quite happily give Truck Moves and its 125 experienced drivers the task of delivering hundreds of vehicles on time, every day, every week, Australia-wide.

"Well, they make it easier. If I need to move a truck from Sydney to Melbourne, or vice versa, I tell them what I need and they do it," Terkes adds.

Truck Moves is a truly national service, providing same-day pick-up for medium or heavy-duty trucks, and trailer and bus-delivery services for importers, manufacturers and their dealer networks.

"I don't have to worry about my driver on the road, or finding him a room," Terkes says. "You just put it in their hands. You don't have to worry about anything. That's what I like about it."

For Terkes, Truck Moves ticks all the right boxes. One of those is peace of mind.
